

NOTE: This map shows potential future improvements to major roads and to larger community facilities where future locations are fairly certain, but does not show all future roads and community facility locations. For conceptual locations of future water mains, see the Village's Water Supply and Distribution System Study. For planned locations of public parks, conservancies, trails, and other recreational facilities, see the Village's Parks and Open Space Plan.

Comprehensive Plan 7-1

Future Transportation and Community Facilities (Official Map)

0 1,000 2,000 Feet
